

Assignments in HTML

Create a website that looks like a screen short as in below

Starting with the webpage from the first exercise, add tags to the webpage so that it looks like the screenshot below:

About

It can be intimidating for women to learn and ask questions when they are in an **extreme minority**. While open and welcoming, today's budding developer community is up to **91% male**. If we can empower more females with the confidence in their technological capabilities *we can begin to change this landscape*.

Our Locations

Starting with the solution from the HTML 2 exercise, add CSS rules to the webpage so that it looks like the screenshot below. All the CSS rules should have "color: red;" or "color:blue;" as the property-value pair, and just use different selector types to style the different parts of the page. Note that there are often multiple ways to achieve the same result in CSS. Try to use a mix of the different types of selectors- id, class, position in document, etc.

The goal is to create a webpage that looks like the screenshot below. Follow these steps:

- Create a div for the paragraphs and style it appropriately.
- Create a span for the first sentence of each paragraph, and style appropriately.
- Resize the image to match the width of the div.

Fox

Fox is a common name for many species of carnivorous mammals belonging to the Canidae family. Foxes are small to medium-sized canids (slightly smaller than the median-sized domestic dog), characterized by possessing a long narrow snout, and a bushy tail (or brush).

Members of about 37 species are referred to as foxes, of which only 12 species actually belong to the Vulpes

The goal is to create a webpage that looks like the screenshot below. Follow these steps:

- Copy this webpage (the solution from the first exercise).
- Add appropriate margin, border, and padding to the text div.
- Add appropriate border to the image.
- Create a div for all of the page content and center that in the middle of the page.
- Add appropriate border and padding to that div.

Fox
